Project Narrative

Existing Property Description

The subject property is located at 0 Ashworth Drive, is shown in the Oxford Assessor's records as map 3, parcel A05, and is situated in the Multi-Family (R-4) zoning district (the "Site"). The Site is a 152.89-acre partially undeveloped parcel of land with varying topography and mixtures of hardwood and evergreen trees. In addition to the subject parcel, a commercially zoned parcel shown as Oxford Assessor's records as map 6, parcel A01, containing approximately 26 acres will be utilized to provide access to Southbridge Road (Route 20). The Site is bounded on the north by the Massachusetts Turnpike Authority; on the east by partially developed land also owner by the Applicant; on the south by Southbridge Road (Route 20), Charter Communications and Thayer Pond Village; and on the west by Thayer Pond Village and Texas Pond.

As part of the original approved plans, considerable alterations occurred to the site in 2008 and 2009 as construction on the approved site commenced. This work included tree and vegetation removal, stripping of topsoil and subsoil, and significant earthwork and blasting along the main road through the site connecting Route 20 to Ashworth Drive, a secondary road that runs westerly off the main connecting road, and the northeast area of the property that lies in Auburn. Since 2009, the vegetation throughout much of the site has begun to recover and can be classified as sparse shrubs consisting of early successional species.

The subject property contains numerous wetland resource areas which were delineated by B&C Associates, Inc. and Ecotec, Inc. in 2018 and 2019 and field located. Specific wetland resource areas were confirmed by the issuance of an Order of Resource Area Delineation (ORAD) for DEP File #255-796 by the Oxford Conservation Commission on June 5, 2019 and recorded in the Worcester District Registry of Deeds in Book 60711, Page 266. Upon a thorough site inspection, the ORAD was extended by the Oxford Conservation Commission on June 15, 2022 and recorded in the Worcester District Registry of Deed in Book 67843, Page 1.

The property does not have any known water protection districts or wellhead protection areas, areas of critical environmental concerns (ACEC's), NHESP Estimated or Priority Habitats, Certified Vernal Pools, or Activity and Use Limitation (AUL) areas.

Proposed Project Description

Eastland proposes to construct a multi-phase 320 duplex-style townhouse community with associated earthwork, roadways, utilities, landscaping, and stormwater management facilities. Eastland has permitted and constructed many successful duplex-style communities similar to Ashworth Hills. Examples of these include Walden Woods in Milford, Rogerson Crossing in Uxbridge and Clearview in Millbury.

The Ashworth Hills would permanently alter approximately 92 acres of land, which represents 60% of the project site. Of the 59.6 acres of undisturbed land, approximately 50 acres will remain as protected open space in perpetuity. The overall area of site alteration has been reduced from the original approved plans, and proposed grading has been improved to utilize existing grades to the maximum extent practicable. Ashworth Hills proposes duplex homes fronting directly on a newly aligned roadway

system. This minimizes land alteration by keeping units close to the road and close to each other. As part of the site design, major roads in the community were placed within the previously disturbed areas and connect to the main roadway that currently exists through the site.

Site Access /Traffic

The main site access will be off of Southbridge Road (Route 20) and there will be secondary access off Ashworth Drive and a proposed emergency access only from Thayer Pond Village. Eastland and Turning Point Engineering have had numerous meetings and workshops to discuss the proposed project with MassDOT and how it integrates with the work currently being done on Route 20. MassDOT has issued a Temporary Access Permit at the proposed site entrance

Greenman-Pedersen (GPI) has prepared a Traffic Impact and Access Study (TIAS) to analyze the traffic impacts of a proposed multi-use development, *The Reserve*, to be located in Oxford and Auburn, Massachusetts and to identify traffic mitigation measures necessary to minimize those impacts. A Traffic Impact and Access Study has been prepared and submitted with a Final Environmental Impact Report #EEA15912 to MEPA and provided within this application.

Stormwater Management

All stormwater runoff will be collected and conveyed to BMPs in accordance with MassDEP Stormwater Management Standards. Detailed plans for erosion controls, methods to provide stabilization during construction, and long-term pollution prevention procedures are provided within the enclosed plan set and stormwater management report. The project will be subject to a Construction General Permit in accordance with the U.S. EPA NPDES program.

The stormwater analysis was performed using rainfall data published by NOAA Atlas 14. The 24-hour rainfall data used for the 2-year (3.22"), 10-year (5.00"), 25-year (6.12"), and the 100-year (7.84") storm events exceed the 24-hour rainfall requirements in the MassDEP Stormwater Policy.

Water

Eastland and Turning Point Engineering have had numerous meetings and workshops with MassDOT and Aquarion Water Company in order to provide water to the property. As a result of those meetings, a 12" CLDI water line was extended from Turner Road along Route 20 and stubbed to the ROW of the subject property. The water line stub and gate valve on Route 20 have been installed and the plans show connection at that location.

Sewer

The Proponent has recently received a letter of intent (dated 8/13/24) from the Oxford-Rochdale Sewer District (ORS D) that allocates 63,000 gallons per day of sewage discharge from the proposed Ashworth Hills and Ashworth Commons developments to the Oxford-Rochdale Treatment Plant. The letter of intent has been provided within this application.

The sewer flows will be discharged via a force main along Ashworth Drive over the Massachusetts Turnpike (Route 20) and tie into a gravity system that discharges to the Oxford-Rochdale Treatment Plant.

Date:

Time:

Keeping in mind that projects come in a variety of sizes and scope, please address each section of the Review Considerations completely. A complex project should include where we may find details of each section in the plans or other documents. A simple project may require just a brief description. The Planning Board shall consider and apply the following factors during its review of site plan applications.

Lighting:

Site lighting will be provided along the roadways within the community. Light poles will be placed along the roadways to ensure sidewalks are adequately lit. The proposed site lighting will not adversely affect adjacent properties and light spillage will not extend beyond the subject property.

Landscaping and Screening:

Landscape and buffer screening areas have been proposed on the site plan, specifically in the location of abutting properties on Ashworth Drive. Landscaping is provided within the project, with street trees being proposed along the roadways. In addition, each unit will receive landscaped areas.

Stormwater Management:

For stormwater purposes, new construction requires that all Stormwater Management Standards be met per MassDEP. The project has been designed to meet Stormwater Management Standards. Precipitation amounts used were taken from Cornell extreme precipitation rainfall data.

Site Development Standards:

The site will be developed meeting all applicable local, state and federal regulations.

Pedestrian and Vehicle Access: Traffic Management:

A Traffic Impact and Access Study has been prepared and submitted with a Final Environmental Impact Report #EEA15912 to MEPA and provided within this application.

Aesthetics:

The proposed community will consist of duplex-style townhouse homes that will incorporate sidewalks, landscaping and street lighting throughout the community. Similar to other communities built by Eastland, Ashworth Hills will be a visually-pleasing community with varied topography will add a diverse and attractive streetscape. Sample architectural plans can be found within this application.

Utilities; Security; Emergency Systems:

The proposed project will be served by water from Aquarion Water Company. Provisions have already been made with a 12" water stub having been installed at the site entrance at Route 20. The proposed project will be served by the Oxford Rochdale Sewer District via will serve letter dated 8/13/24 and provided within this application.

SITE PLAN REVIEW APPLICATION CHECKLIST

This Site Plan Review Checklist should be completed by the applicant. It is intended to assist the applicant in the planning process of preparing a site plan review application for Planning Board Action. The type of the proposed project will determine the types of information required to review a site plan, therefore, a pre-application meeting with the department heads to determine the list of items that must be completed is strongly encouraged. The applicant is also advised to go through the Site Plan Review Regulations for full details.

OXFORD-ROCHDALE SEWER DISTRICT

**P. O. BOX 246
ROCHDALE, MASS. 01542**

August 13, 2024

**Eastland Partners, Inc.
997 Millbury Street
Worcester, MA 01607**

Gentlemen:

The Oxford Rochdale Sewer District (ORSD) provides sewer services for areas of Rochdale and North Oxford Massachusetts in accordance with the Acts of 1957 Chapter 250. These sewerage services include wastewater collection, pumping and treatment of domestic wastewater.

Eastland Partners, Inc. is proposing that the ORSD accept domestic wastewater from a proposed development termed Ashworth Hills Residential Development located in Oxford, Massachusetts. The development consists of approximately 320 housing units and commercial plaza. Anticipated wastewater flow from the development is 63,000 gallons per day. Sewerage facilities for the proposed development will be owned, operated, and maintained by a separate home owners association.

Eastland Partners, Inc. agrees to remove existing system infiltration/inflow to allow for the addition of Ashworth Development wastewater flow to the ORSD sewer system. Eastland Partners, Inc. also agrees to pay connection fees for housing units and commercial plaza along with annual sewer service charges. Connection fees and sewer service charges will be in accordance with current ORSD Rules and Regulations.

In accordance with the Board of Sewer Commissioners vote on August 2, 2024, the District will provide Eastland Partners, Inc and its subcontractors pertinent infiltration/inflow reports and data so they can develop an infiltration/inflow removal plan. The plan shall be submitted to the ORSD for approval prior to implementation.

The ORSD hereby accepts Eastland Partner's proposal for the Ashworth Hills Development project as cited above. A detailed Agreement will be prepared between the District and Eastland Partners, Inc once final approval of the proposed development has been received.

This letter shall serve as a Letter of Intent between the principals of Eastland Partners, Inc., 997 Millbury Street, Worcester, MA 01607 and the Oxford Rochdale Sewer District, P.O. Box 246, Rochdale, Massachusetts 01542 to accept and treat the wastewater generated from the subject development including one commercial establishment.

Sincerely,

Robert F. Wilson
Acting Superintendent
Oxford Rochdale Sewer District
