

## **Town of Oxford MS4 Permit Historic Properties Screening Determination**

As required by the MA MS4 General Permit, the Town of Oxford has determined that **the discharges regulated under the NPDES MS4 General Permit do not have the potential to cause effects on historic properties and certify eligibility for the permit using Criterion A of the screening process.**

This determination was established by following the screening process in Appendix D of the permit. Criterion A of the process is met; the Town of Oxford was authorized to discharge under a previous permit.

According to Appendix D, to the extent that the permit authorizes renewal of prior coverage without relevant changes in operations the discharge has no potential to have an effect on historic properties.
